HENDRICKSON

Hendrickson HT 300

The HT SERIES delivers rugged dependability and outstanding ride quality and control for vans, platforms, dumps, tankers, dollies and pups, lowboys, auto haulers, trailers on flat cars, B-trains, Michigan trains and container chassis. Our patented TRI-FUNCTIONAL® Bushing in unison with a rigid beam and solid axle connection provides the ideal combination of ride softness and roll stability.

Q Plus brakes offer premium stopping performance comparable to disc brakes. at a lower cost of ownership.

CRAMARO—The Original Sliding Tarp System

Convenient. Provides all the support of a bowed tarp system but the bows all move automatically out of the way with the tarp when covering or uncovering.

Versatile. Different models for different needs: Anti-Pollution, Semi-Waterproof, full Waterproof (Mentor).

Adaptable. Will work on any length body or trailer. Works on dump bodies, end dumps, belly dumps, roll offs, hoppers etc.

Durable. Built with heavy duty components for years of usage. Flexibility of cable prevents damage by loader.

Covers or uncovers in seconds. Saves you time and money every time you cover or uncover your load. Either manual ground control crank or optional electric motor.

2017 Custom Quad Axle End Dump
